

Drill King International's DTH Air Hammers Feature Heavy-Duty Design, No Foot Valve

Drill King International introduces a new line of DTH air hammers that combines two beneficial features: heavy-duty design and drilling without a foot valve.

The 6-inch X-treme Torque (XT) hammer is the pilot design, featuring a thicker wear sleeve along with DKI's signature hardening and anti-corrosive treatment—proven to improve the hammer's wear resistance. The no-foot valve feature is an added performance bonus to accomplish the ultimate HD hammer.

Conceived with the driller in mind by DKI's team of engineers and backed by the company's ISO 9001:2015 quality assurance and manufacturing tradition, DKI's new line of XT Air Hammers is your drilling solution.

Palmer Bit's Diamond PDC Proves Worth in Consolidated Rock Formations

Palmer Bit Co.'s Diamond Devil PDC has been tested and proven time and time again to be the go-to PDC on the market for consolidated rock formations.

The unique design of the Diamond Devil PDC increases penetration rate and has the durability to hold up in harder formations such as limestone, while drilling through stickier clay formations with no adverse effect.

Palmer Bit sells a complete line of PDC bits, drag bits, rock bits, and other drilling bits.
